

Thursday, May 14th from 6-10pm | The Village at 969 Market St, San Francisco

CORPORATE SPONSORSHIP OPPORTUNITIES

Corporate sponsorships are available for *Interconnection 2015*, GRID Alternatives' annual fundraiser and celebration! Join us for this unique event, including a Board of Directors Reception that will bring together policymakers, industry leaders, top GRID supporters and renewable energy thought leaders for networking and engagement with GRID Alternatives' leadership. Connect with a thriving solar energy community for intimate discussion of GRID Alternatives' work to increase diversity in the solar industry and how we are connecting a skilled workforce with jobs.

The main reception will highlight the neighborhoods and people we serve by evoking the culture and scenery of the urban landscapes we work in through art, music, food and technology. We'll also be honoring key supporters whose commitment to our shared vision of a successful transition to clean, renewable energy that includes everyone has made our work possible. Join friends, colleagues, dignitaries and others to celebrate with us on May 14th!
