SOLARIZE YOUR SPRING BREAK!

*Come soak up
some rays on
your spring or
winter break
while learning
to install solar
and providing
families in need
with clean,
renewable
energy.*

GRID Alternatives' Solar Spring Break offers student groups from around the country the opportunity to spend winter or spring break installing solar panels in underserved communities. You will gain hands on experience with renewable energy while helping low-income families and the environment all at once! Participants must be 18 or older.

What **GRID Alternatives** provides:

- Five days of programming, including installations, workshops, tours, and speakers
- Solar installation training by our certified solar professionals
- All the tools necessary
- On-site instruction/supervision
- Housing

What you provide:

- A group of 10-12 students ready and willing to spend their break installing solar
- \$5,000 per team of fundraising to cover the program costs (not including the cost of food/transportation.) Nicaragua trip fee is \$20,000 per team plus airfare.
