

# SOLAR SPRINGBREAK

## SOLARIZE YOUR SPRING BREAK!

*Come soak up some rays on your spring break while learning to install solar and providing families in need with clean, renewable energy.*

**Solar Spring Break**, an international Alternative Break Program, gives college students the opportunity to spend their spring vacation week installing solar in underserved communities with GRID Alternatives. You'll get hands-on experience with renewable energy while making a difference for people and the planet!

### What GRID Alternatives provides:

- Solar installation training by our certified solar professionals
- Additional programming such as educational workshops, tours, and speakers
- Housing

### What you provide:

- A group of 10-12 students ready and willing to spend their spring break installing solar
- \$5,000 of fundraising to cover the program costs (food and transportation not included)

**FOR QUESTIONS EMAIL US AT:**
