

SOLAR SPRINGBREAK

SOLARIZE YOUR SPRING BREAK!

*Come soak up
some rays on
your spring break
while learning
to install solar
and providing
families in need
with clean,
renewable energy.*

Solar Spring Break, a service-learning break program, gives college students the opportunity to spend part of their spring, winter, or summer break installing solar in underserved communities with GRID Alternatives. You'll explore how solar can provide real-world solutions to real-world problems and get hands-on experience!

What GRID Alternatives provides:

- Solar installation training by our certified solar professionals
- Service-learning materials to prepare for the trip
- Additional programming such as workshops, tours, and volunteering
- 5 nights of housing

What you provide:

- A group of 10-12 students ready and willing to spend their spring break installing solar
- \$5,000 of fundraising per team to cover the Solar Spring Break program fee (food and transportation not included)

FOR QUESTIONS EMAIL US AT:
